

The Counter Revolution

My whole career has been in the legal profession. Over the years I have become more and more concerned about the situation in the country. Whichever party was in power the same process of increasing degeneration and decay kept on happening. They never listened to the people for whom they were supposed to be working. The whole political process had become completely corrupt.

As a result I have spent the last five years of my life intensely working on a "**Programme of National Reform**" with the creation of a set of detailed constitutional, political, electoral, legal, monetary, educational and social reforms which are set out in my book "The Counter Revolution". The book can be downloaded without charge at:

It is suggested that the Summary in the Introduction is read first as this gives an overview of the main points.

I consider that creating the book was my destiny.

These reforms provide for **a fundamental and permanent transfer of power from the corrupt and toxic British Ruling Elite to the individual British Citizen.**

The Counter Revolution provides a new spiritual-political system for empowering the individual for a new era. It breaks virtually every current political taboo, and so those with old thinking caused by brainwashing over many years will despise it. But old thinking has to change. This is a completely new statement, unaligned with Left or Right, or any of the existing political fashions.

There must be a new start in society, and so there must be a reassertion of the Universal Spiritual Laws. The **Programme of National Reform** provides that these spiritual principles are built into the legal and political systems to give spiritual meaning and purpose to human existence. The two must now go together.

These spiritual understandings are set out in Appendix A of the book ("The Spiritual Destiny of Humanity").

I started meditating seriously over 45 years ago and do just over three hours of meditation every day; this influences and directs my entire life.

Every word of the book comes from my soul.

I have not had a TV (and all its misinformation and brainwashing) for over 16 years and I get all my information from researching world-wide sources and a library of research books (some very rare) that I have collected over decades.

In my research over many years I discovered that the degeneration and decay in society has been deliberately and carefully planned and orchestrated over a long period of time; it has not been an accident.

My research also showed me that the ones with the real power are generally unseen—and that they are very malign and very dangerous.

Unfortunately, very many people who rely entirely on the TV for their news and information, are completely unaware of what is really going on in the country. They are unaware of the many threats to our personal liberty that are being planned, such as the nightmare of the CBDC, Global Digital ID, 15 Minute Smart Cities and all round intrusive monitoring and surveillance where eventually we will need permission from those in control to carry out the most ordinary of everyday activities, and where we will be prevented from carrying them out if they blacklist us. This nightmare really is coming, and many people will be very surprised.

One major reason for the complete corruption of British democracy is the political party system. It is therefore a key platform of the **Programme of National Reform** that the political party system is abolished and that all MPs are independents; they will be contractually bound to their constituents and if they break their contractual duties they can be directly removed by their constituents. Details of this are set out in the book.

The British Ruling Elite's woke policies, with their lies and deliberate promotion of depravity, degeneracy and destruction, are in total breach of the Universal Spiritual Laws. These policies will be stopped.

I am so deeply outraged by the deliberate corruption, degeneration and decay which has caused so much damage, that if it turns out to be the very last thing I ever do I want to stop it and repair it—whatever the damage and cost to me personally.
